

**AMENDMENTS TO THE SPECIFICATION**

Please amend the specification as follows:

Please amend Paragraph [0013] as shown below:

In an embodiment the antenna comprises a loop, which is usable also as a charging loop for a battery. In modern hearing aids rechargeable batteries are becoming more common, and in order to charge the batteries the hearing aid is placed in a strong varying magnetic field, which will generate a current ~~in a an in an~~ an electric loop or coil inside the hearing aid. It has been discovered that the antenna can be used as the induction loop on the secondary side of such a charging device.
